

# COLTEC VISTA

## Commercial Display Series – Where Innovation Meets Visibility

Step into the future of commercial displays with COLTEC Vista – a cutting-edge display solution designed to deliver crystal-clear visuals, seamless connectivity, and unmatched reliability. Whether for retail, corporate, hospitality, or control centers, COLTEC Vista transforms any space with its ultra-HD resolution, sleek design, and 24/7 performance.

Built for maximum impact, these commercial displays enhance branding, presentations, and digital engagement like never before.

4K Resolution

True Color Accuracy

Intelligent Backlight Control

Cloud-Based Remote Management

24/7 Reliability & Durability

Versatile Connectivity

16:9 Aspect Ratio

Integrated Module Design

### Stunning Visual Clarity with High-Resolution Performance

Experience crystal-clear visuals with COLTEC Vista Commercial Display, delivering ultra-HD 4K/8K resolution for sharp, vibrant imagery. With high brightness and superior contrast, every detail remains crisp and clear, even in brightly lit environments. The wide viewing angles ensure consistent image quality, making it the perfect choice for retail spaces, corporate settings, and control rooms.

### Smart Connectivity & Seamless Integration

Seamlessly connect and display content with multiple input options, including HDMI, DisplayPort, USB, and wireless sharing. COLTEC Vista Commercial Screens are designed for digital signage, interactive presentations, and real-time content streaming, making them ideal for retail stores, boardrooms, and public spaces. With cloud-enabled and IoT-ready capabilities, managing content remotely and in real-time has never been easier.

### Durable, Energy-Efficient & 24/7 Operation

Designed for continuous use, COLTEC Vista Commercial Display ensures reliable 24/7 performance, making it the ultimate choice for high-traffic environments. Featuring energy-efficient technology, it reduces power consumption while maintaining exceptional brightness and performance. Built with industrial-grade components, these commercial screens offer long-lasting durability, ensuring an excellent return on investment for businesses that demand reliability and performance.

## Application Scenarios

### Indoor Commercial Displays for Retail Showrooms & Malls

Retail showrooms and shopping malls use high-resolution commercial displays for dynamic advertising and customer engagement. Ultra-HD video walls showcase promotions, product highlights, and interactive content to attract shoppers. AI-powered analytics track customer engagement, while interactive touchscreen kiosks allow personalized browsing, enhancing brand visibility, customer experience, and in-store sales.

COLTEC Vista Commercial Display Series delivers unmatched clarity and reliability with cutting-edge technology. Featuring Ultra-HD 4K, high brightness, anti-glare design, zero-latency processing, high refresh rates, and advanced IPS panels for smooth, flicker-free performance.

Equipped with HDMI, USB-C, DisplayPort, and wireless screen sharing, COLTEC Vista seamlessly integrates into business ecosystems. A cloud-based remote management system centralizes content control, while energy-efficient components ensure 24/7 durability with minimal power consumption.

## COLTEC Where Cutting-Edge Technology Meets Uncompromised Clarity

COLTEC Vista Commercial Display Series is built on proprietary display and processing technology, ensuring superior performance, longevity, and seamless integration. Unlike standard commercial screens, COLTEC's proprietary image processing engine enhances color accuracy, contrast, and motion clarity for ultra-smooth visuals.

Our zero-latency touch response and smart AI-driven upscaling provide lifelike image precision. Advanced thermal management extends display lifespan, while intelligent backlight control ensures energy efficiency without compromising brightness. Designed for enterprise-grade applications, COLTEC Vista's custom-engineered chipset and firmware optimize real-time content processing, setting a new benchmark for commercial display excellence.
